THE WHITE HOUSE

	WASHINGTON
	STAT 16 August 1962
	MEMORANDUM FOR MR. McCONE
25X1 25X1 [I have become increasingly impressed with the potential value of the intelligence from the volume of which is apparently increasing very rapidly. However, I am uncertain as to the effectiveness of the exploitation of this material, particularly within the Armed Services. The differing degrees of security classification of the sources may be an obstacle to the effective integration of all sources contributing
	When I visit the Defense Intelligence Agency in the near future I intend to go into this matter with General Carroll, after which I would appreciate an opportunity to discuss the matter with you.

25X1	4. To date we have encountered no acute security problems in using materials in national estimates. The materials have in some instances been sanitized, and in others they have been explicitly used, along with other special types of intelligence, in limited-distribution estimates.
25X1	5. Apart from national estimates, CIA uses these materials as a regular input in its research projects, such as the reports of OCI and the intelligence studies carried out by ORR and OSI. In addition, a team of CIA analysts systematically examines each item before publication and prepares preliminary summaries and comment on items of special interest for high-level officials in CIA and the White House.
25X1	6. Security Considerations. Our controls on consumer handling and use of both materials are dictated by consideration concerning the source's security.
